# MEDICAL & PHARMACEUTICAL LAW

Our interdisciplinary team of specialists assists our clients with all medical law issues. We advise private, municipal and non-governmental charitable institutions. Our clients include day and inpatient hospitals, medical ambulances, university clinics, inpatient and outpatient nursing institutions, medical device and pharmaceutical companies, as well as medical care centres.

Following you can inform yourself about our main practice areas. In addition, we provide comprehensive legal and tax advice to companies active in the health sector.

## Law applicable to hospitals

- Social security law
- Planning and finance law
- Licencing and authorisation law
- The protection of “social data,” e.g. patient health and health insurance data

## Social security law

- Advice on the Social Security Code (SGB), parts I, V to VIII, X, and XI

## Procurement law

- Tenders e.g. of rebate agreements
- The tender of selective agreements
- The tender of construction projects

## Cooperation projects, including cross-sector projects

- Assessing admissibility
- Drafting contracts
- Assisting with consultations with the relevant authorities, where applicable
- Providing assessments with respect to anti-corruption provisions

## Transactions

- Due diligence
- Contractual negotiations
- Drafting contracts and agreements
- (Legal) Integration

## Pharmaceuticals law

- Licencing and approval law
- Providing support with official proceedings

## State aid law

- Assessing the legal requirements
- Advising on the grant of aid
