### **Adacta and ADVANT Beiten Advise EBARA on the Acquisition of a Business Division of SKF**

Munich, 24 July 2023 - The international commercial law firm ADVANT Beiten has advised EBARA Pumps Europe S.p.A. (EPE), part of the Japanese EBARA Corporation (EBARA), on the acquisition of the business division Spandau Pumpen (coolant pumps) of SKF Lubrication Systems Germany GmbH (SKF), a subsidiary of SKF Group. The ADVANT Beiten team around the lead partners Dr Markus Ley and Moritz Kopp has rendered advice on all issues under German law; the Italian law firm Adacta has played a leading role in assisting the transaction on the buyer side. The Italian law firm ADVANT Nctm advised on antitrust issues. The parties have agreed that the purchase price will not be disclosed. The transaction will most likely be closed at the end of September 2023.

With Spandau Pumpen, SKF disposes of extremely competitive screw-type and seal-less coolant pumps with a valuable customer base mainly in the European market. Through the acquisition, EBARA aims to enter the global market for machine tools and filter systems and will expand its portfolio by providing new products and services.

EBARA will take over the customer base and certain assets of Spandau Pumpen, will relocate the production to one of its plants in Italy and will work on the expansion of its business. EBARA Corporation has committed itself to achieve several UN Sustainable Development Goals (SDGs) in order to create added business value and to reinforce its reputation as an excellent global player.

The global development of new markets through acquisitions and integration of value-added products are a central element of EBARA's strategy. Further investments are planned in the field of M&A.

#### **Advisor to EBARA Pumps Europe:**
