Conference participants discussed the development of Russia’s regulatory and legal framework as regards letters of credit and independent guarantees, the practice of dispute resolution concerning letters of credit and guarantees, and infrastructure transformations in international trade.

Alexander Bezborodov, partner at the Moscow office of Beiten Burkhardt, was one of the speakers. He gave a talk on the topic “International Regulatory Impact Assessment in the Area of Anti-Money Laundering” together with Mr David Kani (ICC Commercial Crimes Service), Mr Klaudius Heda (International Counsel, Debevoise & Plimpton), and Mr Sergey Yakovlev (Interfax Group).

We would like to thank the ICC of Russia for the splendid organisation of the conference and our longstanding cooperation.
